To whom it may concern:

This is a professional reference letter for Mr. Jered Buhayan. I have known him for a month of training in Intensive Care Unit 2 among all the 4 special areas and 2 ward areas in the Southern Philippines Medical Center (formerly known as Davao Medical Center) As a nurse trainee, he has done a satisfactory work in doing all the nursing tasks delegated to him.

If he will be given an opportunity to serve your institution, he would provide same level of competence as he did in Intensive Care Unit 2. If you have any queries with regards to him, please do not hesitate to contact me.

Sincerely yours,
Johanna Agustin, RN
